

# SAFETY DATA SHEET

## CPI-GEORGIA

Isotopeshop.com

Version 1.0

Revision Date: 26/09/2023

Print Date: 26/09/2023

### Section 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifiers

Product name: Ammonium formate <sup>15</sup>N  
Product Number: N/A  
Brand: CPI Georgia  
CAS-No.: 540-69-2\*  
Formula: HCO<sub>2</sub>NH<sub>4</sub>

#### 1.2 Recommended use of the chemical and restrictions on use

For research use only. Not intended for diagnostic or therapeutic use.

#### 1.3 Details of the supplier of the safety data sheet

Company: CPI Georgia  
46 Petre Kavtaradze Street,  
Tbilisi, Georgia, 0186

Telephone: +995-322-303-495  
Fax: +995-322-303-495  
E-mail address: Info@isotopeshop.com

### Section 2: Hazards Identification

#### 2.1 Classification

Skin irritation (Category 2), H315

Eye irritation (Category 2), H319

Specific target organ toxicity - single exposure (Category 3), Respiratory system, H335

#### 2.2 GHS Label elements, including precautionary statements

Not a hazardous substance or mixture.

#### 2.3 Other Hazards

No additional information available.

### Section 3: Composition/ Information on Ingredients

#### 3.1 Substances

Chemical Name	CAS#	Weight-%
Ammonium formate <sup>15</sup> N	HCO <sub>2</sub> NH <sub>4</sub>	>98%

Formula: HCO<sub>2</sub>NH<sub>4</sub>  
Molecular weight: 64.06 g/mol  
CAS-No.: 540-69-2\*

### Section 4: First-Aid Measures

**4.1 First Aid Measures**

General advice:

If symptoms persist, call a physician. Do not breathe dust/fume/gas/mist/vapors/spray. Do not get in eyes, on skin, or on clothing.

Eye contact:

Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If symptoms persist, call a physician. Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower and upper eyelids. Consult a physician.

Skin Contact:

Consult a physician if necessary. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Immediate medical attention is not required. If skin irritation persists, call a physician.

Inhalation:

Move to fresh air, Call a physician, If breathing is irregular or stopped, administer artificial respiration, avoid direct contact with skin. Use barrier to give mouth-to-mouth resuscitation immediate medical attention is not required Move to fresh air in case of accidental inhalation of vapors If symptoms persist, call a physician.

Ingestion:

Rinse mouth. Drink plenty of water. If symptoms persist, call a physician. Do NOT induce vomiting. Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person. Call a physician.

Self-protection of the first aider:

Use personal protective equipment as required.

**4.2 Most important symptoms and effects, both acute and delayed**

Symptoms No information available.

**4.3 Indication of any immediate medical attention and special treatment needed**

Note to physicians. Treat symptomatically.

**Section 5: Fire-Fighting Measures****5.1 Extinguishing media**Suitable extinguishing media: Water Foam Carbon dioxide (CO<sub>2</sub>) Dry powder**5.2 Special hazards arising from the substance or mixture**

Carbon oxides

Combustible

Development of hazardous combustion gases or vapors possible in the event of fire.

**5.3 Advice for firefighters**

Stay in danger area only with self-contained breathing apparatus. Prevent skin contact by keeping a safe distance or by wearing suitable protective clothing.

**5.4 Further information**

Prevent fire extinguishing water from entering surface or ground water system

**Section 6: Accidental Release Measures****6.1 Personal precautions, protective equipment, and emergency procedures**

Personal precautions:

Avoid inhalation of dust. Avoid substance contact. Ensure adequate ventilation. Evacuate a danger area, observe emergency procedures, consult an expert.

**6.2 Environmental precautions**

Environmental precautions:

Prevent entry into waterways, sewers, basements, or confined areas. Do not flush into surface water or sanitary sewer system. Prevent further leakage or spillage if safe to do so. Prevent product from

<p><b>6.3 Methods and material for containment and cleaning up</b>  Methods for containment:  Methods for cleaning up:</p>	<p>entering drains. See Section 12 for additional Ecological Information.</p> <p>Prevent further leakage or spillage if safe to do so. Use personal protective equipment as required. Cover powder spill with plastic sheet or tarp to minimize spreading and keep powder dry. Take up mechanically, placing in appropriate containers for disposal. Avoid creating dust. Clean contaminated surface thoroughly. Soak up with inert absorbent material. Dam up. Pick up and transfer to properly labeled containers. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water. Take precautionary measures against static discharges.</p>
<b>Section 7: Handling and Storage</b>	
<p><b>7.1 Precautions for safe handling</b>  Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Further processing of solid materials may result in the formation of combustible dusts. The potential for combustible dust formation should be taken into consideration before additional processing occurs. Provide appropriate exhaust ventilation at places where dust is formed. For precautions see section 2.2.</p> <p><b>7.2 Conditions for safe storage, including any incompatibilities</b>  Tightly closed. Dry</p> <p><b>7.3 Specific end use(s)</b>  Apart from the uses mentioned in section 1.2 no other specific uses are stipulated.</p>	
<b>Section 8: Exposure Controls/Personal Protection</b>	
<p><b>8.1 Control parameters</b>  Exposure Guidelines:</p> <p><b>8.2 Exposure controls</b>  <b>Appropriate engineering controls</b>  Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.</p> <p><b>8.2.1 Personal protective equipment</b>  <b>Eye/face protection</b>  Safety glasses with side-shields conforming to EN166 Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).</p> <p><b>Skin protection</b>  Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.</p> <p><b>Body Protection</b>  Complete suit protecting against chemicals, the type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.</p> <p><b>Respiratory protection</b>  Respiratory protection is not required. Where protection from nuisance levels of dusts are desired, use type N95 (US) or type P1 (EN 143) dust masks. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).</p> <p><b>Control of environmental exposure</b>  Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.</p>	<p>This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region-specific regulatory bodies.</p>

**Section 9: Physical and Chemical Properties****9.1 Information on basic physical and chemical properties**

Physical State:	crystalline
Appearance:	colorless
Odor:	No information available
Molar mass:	64,06 g/mol

**Property****Values**

pH	5,5 - 7,5 at 63,1 g/l at 25 °C
Melting point/freezing point	119 - 121 °C
Boiling point	180 °C
Flash point	No information available
Density	1,26 g/mL at 25 °C
Evaporation rate	No information available
Upper flammability limits	No information available
Lower flammability limits	No information available
Vapor pressure	No information available
Vapor density	No information available
Specific gravity	No information available
Water solubility	63,1 g/l at 20 °C - completely soluble
Solubility in other solvents	No information available
Partition coefficient	No information available
Autoignition temperature	No information available
Decomposition temperature	No information available
Kinematic viscosity	No information available
Explosive properties	No information available
Oxidizing properties	none

**Section 10: Stability and Reactivity****10.1 Reactivity**

The following applies in general to flammable organic substances and mixtures: in correspondingly fine distribution, when whirled up a dust explosion potential may generally be assumed.

**10.2 Chemical stability**

The product is chemically stable under standard ambient conditions (room temperature) . Avoid moisture.

**10.3 Possibility of hazardous reactions**

None under normal processing.

**10.4 Conditions to avoid**

No data available

**10.5 Incompatible materials**

Strong oxidizing agents, Strong acids

**10.6 Hazardous decomposition products**

Other decomposition products - No data available.

In the event of fire: see section 5.

**Section 11: Toxicological Information****11.1 Information on likely routes of exposure**

Inhalation:	No data available.
Eye contact:	No data available.
Skin Contact:	No data available.

**11.2 Information on toxicological effects**

Symptoms: No information available.

**11.3 Delayed and immediate effects as well as chronic effects from short and long-term exposure**

Chronic Toxicity: Avoid repeated exposure.

**Numerical measures of toxicity - Product Information**

Unknown acute toxicity: 100% of the mixture consists of ingredient(s) of unknown toxicity

**Section 12: Ecological Information****12.1 Toxicity**

static test EC50 - Daphnia magna (Water flea) - 365 mg/l - 48 h (OECD Test Guideline 202)

**12.2 Persistence and degradability**

aerobic Result: - Readily biodegradable. (OECD Test Guideline 301B)

**12.3 Bioaccumulative potential**

No data available.

**12.4 Mobility in soil**

No data available.

**12.5 Results of PBT and vPvB assessment**

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

**12.6 Other adverse effects**

An environmental hazard cannot be excluded in the event of unprofessional handling or disposal. Toxic to aquatic life with long lasting effects.

**Section 13: Disposal Considerations**

Disposal of wastes:	Disposal should be in accordance with applicable regional, national and local laws and regulations.
Contaminated packaging:	Do not reuse container.

**Section 14: Transport Information****DOT (US)**

Not regulated.

**IMDG**

Not regulated.

**IATA**

Not regulated.

**Section 15: Regulatory Information****15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

This material safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006.

**15.2 Chemical safety assessment**

For this product a chemical safety assessment was not carried out.

Contains gas under pressure; May explode when heated.

**Section 16: Other Information****Disclaimer**

The information provided in this Material Safety Data Sheet is correct to the best of our knowledge, information, and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal, and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
